next-generation  
body sculpting system

# one

THE EUROPEAN SENSATION NOW IN THE UNITED STATES

This is your chance to be one of the first in the United States to offer **ICO-one**, the next-generation, non-invasive sculpting system that has been a huge sensation throughout Europe and worldwide.

GET STARTED  
WITH *ICO-one*

*ICO-one* treats the whole body—including the face and delicate areas—comfortably, effectively, and with no side effects.

This patented, FDA-cleared system is the only technology in the world to deliver multi-micro alveolar stimulation, combined with dual-wavelength laser energy.

\* Targets fat, reduces the appearance of cellulite, and rapidly smooths and tones skin.

\* Achieve results in half the time with twin *RoboDerm*™ handpieces.

\* Multiple configurations treat a wide range of skin and body concerns.

\* Non-invasive, non-surgical and easy to administer.

\* Scientifically proven results

\* Rapid ROI in an expanding market

Visit [ICOtreatments.com](http://ICOtreatments.com) or call 855.710.9777 to learn more about bringing this worldwide success to your practice.

#### A European success, now launching in the US.

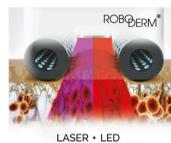

Developed in Italy, *ICO-one* is a breakthrough technology that immediately became popular in Europe, and is known for its powerful and effective, yet painless treatments—that are safe, comfortable, and produce no side effects or downtime.

Expand your practice with *ICO-one*

#### Patented, unique, FDA-cleared technology.

*ICO-one* stimulates every millimeter of skin using an exclusive patented technology. Unlike other methods of mechanical stimulation, *RoboDerm*™ heads deliver alveolar microstimulation perfectly suited to the microvacuoles in subcutaneous tissue, generating a much more effective skin treatment.
